“The Son of Two Nations,” is a literary-historical shocker as Okechukwu in his memoir has lifted the “bloodstained curtain” from Nigeria’s war against the Igbo. His first-person singular account of

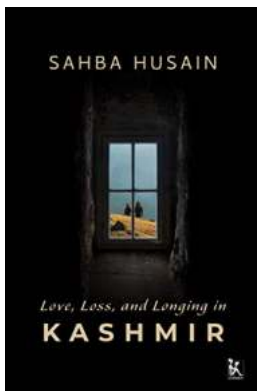

the most awesome and awful

chapter in the moral history of humanity is lucid, chilling, and comprehensive. If any person's singular account in a memoir can tell what the Nigeria – Biafra war was like, this is it. A memoir that one reads in tears, in despair, in anger but above all with gratitude that Okechukwu, is someone who survived to tell a story about it.
