History is often narrated as sagas of kings and queens, legends of battles and wars, or chronicles of art and architecture. But history is more than that. It is the story of ordinary people; their food and language, their thoughts and beliefs, their livelihood and culture. Tales of sweepers and sculptors, robbers and merchants, sailors and saint-why, even pirates!

In this book, Mallika Ravikumar pens eight historical stories that help you look upon the past, as less of a dry-as-bone set of facts, and more of a dynamic shift that shapes our present. Told through the lens of class and conflict, symbols and language, creativity and enterprise and power and perspective, these stories help younger readers see why history is relevant and meaningful.
