Select newspaper articles chosen on the basis of originality, general interest and historic relevance. The collection reveals the wide mosaic of topics and treatments available to a writer serving an ever-changing mix of readers, editors, muses. As a body of work, these pieces convey the complex balance of exact reporting and bizarre styling that characterizes a particular scribe's pursuit of a paycheck, if not a place in journalism history. Readers encounter a parade of predictable news-makers as well as other enlightened souls whose place in the recorded annals of contemporary American folklore is hereby assured, knowing even a fleeting moment of recognition equates to stardom in a rapidly disappearing world of electronic symbols, non-existent attention spans and minds numbed permanently by cascading onsets of information overload, pitiful rhetoric excess, gobble-dee-gook gone amok in rapidly multiplying layers of grotesque stultification, perhaps. Readers get to meet the regular, everyday people who populate the life of an underpaid, over self absorbed keeper of the public record, the victims of his need to submit anything resembling a decent slab of news coverage on another day on the beat, be it a municipality, a topic, an event, a construed happening, an any old thing moment in which nothingness is converted into something moments before deadline. Readers will encounters moments of temporary dizziness, as subjects of coverage swing from conventional to mud pie extract, from culture to culture like a speed cam at a United Nations picnic. The parade of people who stroll through this 30-or-so favorite clips from the writer's ridiculously overpopulated boxes of faded gray ink on crinkly paper define the wide spectrum of humanity breathing air around us, the rich diversity of hominids pursuing their destinies during our shared time on what has got to be one of the most accommodating rocks in space known to alien and man alike. Some of the personalities readers will sit down for a beer with will strike average Americans as

The only way to get there is to go there. The only way to go there should be clear to experienced users of new age models like e-books. By now it is clear acquiring this work will require proper i.d., marital infidelity and profound absence of remorse. Right or left wingers will resist the appeal of this nearly famous assemblage of words, all polite. Only centrists will truly "get it." Others are advised to stick with their regular sources of information, primarily pro wrestling. To conclude this essay, please keep in mind all forms of life originated by descent, with gradual or abrupt modifications, from preexisting forms which themselves race backward in a continuing series to the most rudimentary organisms. Evolution is, and remains, the cosmological theory that accounts for the universe and its contents by the combination of separate and diffused atoms existing originally in a condition of absolute homogeneity. If you find yourself struggling with any of those precepts, let alone the rising cost of plutonium, the writer responsible for this torrent of Thesaurus ambiguity takes this conclusive moment to reach out to the thousands of detractors who follow him from campaign stop to one more re-cooked chicken dinner on the stump with this final ultimatum: get a haircut now or choose your cream rinse eventually. To quote both of my grandfathers, "Women's hair on a man's head is both sinful and cynical, counter-intuitive, distracting and totally tubular to boot." These were men of modest means, humble origin, indistinguishable from the mass of workers who toiled on the front-lines of the industrial revolution except in each of their cases both managed to gain employment in positions removed from the tumult of the production line, white collar heroes.
