Other Lives follows three former college classmates: a self-loathing journalist whose family secret is the least of his problems; his girlfriend, whose obsession with getting married borders on Bridezilla status; a conspiracy theorist who may or may not work for the Homeland Security but definitely lives with his mother;

and a divorced, unemployed gaming addict who lives in his car. While it's their past that unites them, it's their fabricated online identities — some more dangerous than others — that lead to their “real” lives colliding years later. Originally published in 2010 by DC Comics' Vertigo imprint, *Other Lives* is Bagge's first post-*Hate* original graphic novel and has been out of print for several years. Fantagraphics is proud to publish this new edition, at a time when Bagge's oeuvre is enjoying renewed interest following the release of *The Complete Hate* in late 2020.
