"Excellent hands-on to Power Bi"

"A very excellent book on Power BI"

"Great learn by doing book, for those who want to create a professional dashboard."

If you want to learn Business Intelligence software, if you are looking for specific BI tool, or if you are trying to decide on your next new BI solution, you will love Business Intelligence Clinic.

One dataset, multiple solutions: Each book is about a different BI software, and you will follow step-by-step instructions to create a professional sales dashboard with the same friendly dataset.

The BI Clinic series is suitable for everyone - managers, analysts, students... - It will help you compare different Business Intelligence tools, learn the basics, and select the best for your project, company, customers, or personal needs.

In this Create and Learn book, Power BI – Business Intelligence Clinic with more than 300 images, you will go through important topics of Microsoft Power BI Desktop - a Free BI tool from Microsoft. You will learn how to install Power BI

Desktop, get data, model your data, work with visuals and reports, create a sales dashboard, and share your work with others.

We will not go into deep theories as the purpose of this book and all Create and Learn material is to make the most of your time and to learn by doing.

You will follow step-by-step instructions to create a professional sales dashboard, and eight warm-up dashboards to help you rapidly increase your Power BI knowledge.

I hope this book will help you to start your journey in the Business Intelligence world and give you the right tools to start building professional reports and dashboards using Microsoft Power BI.

Thank you for creating and learning.
