The *Journals of James Cook* depict three of Captain James Cook's most glorious expeditions, starting in 1768 and leading to Cook's tragic death in 1779. Though his discoveries and maps inadvertently led to British colonization, Cook held a deep respect for the native people he encountered. He recorded their practices and wrote of them fondly. Cook even befriended some of the native people he encountered, including a Tahitian man who, after hearing of Cook's homeland, wanted to visit it as well. Per the man's request, Cook sailed him to Britain, where the man stayed until he and Cook sailed back to Tahiti three years later. After charting Australia, and the whole coast of New Zealand, Cook was involved in a plot to kidnap a Hawaiian monarch and ransom them in order to recover stolen property. He was killed during this expedition, leaving behind a legacy of a detailed description of the Pacific Ocean and its coasts.
