37 Business Lessons you need to learn to put yourself on the path to business success.

Running a business is both an art and a science. If you are only good at one of them, or in the worst case, neither, you will most likely become one of the 65% of people who fail.

- Every month 500,000 new businesses start in America.
- 150,000 of those will not survive the first twelve months.
- After five years, only 175,000 will still be in business—that's a 65% failure rate.
