Peter Drucker's wide-ranging book, drawn from his best work, looks at management, the individual and society. He connects these themes of today's

world with his usual clear-sighted and far-reaching style to create a work which encapsulates his essential and strongest writings in one volume. Under the three headings, Drucker covers aspects such as what the non-profits are teaching business and the information that executives need today. In his section on the individual he gives advice on knowing your own strengths and values, your time and, intriguingly, the second half of your life.
