Some call them killers--hard men from the other side of the planet sent to collect the heads of their enemies and make peace with a gun.

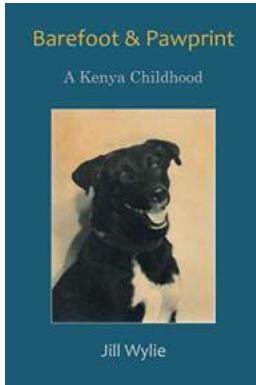

Freedom follows, along with all of its problems. Choice, and a lack of it. A world without the easy answers that come from being in a uniform.

And the space where the two worlds collide. Where a man tries to reconcile the person he's become with the one he was. A new kind of battlefield, where the ghosts of his past change everything he's ever known.
