

The Incredible Love Story That Blossomed in Japanese American Internment Camps

During World War II, the United States government enforced a massive relocation and incarceration program that affected over 120,000 innocent Japanese Americans. These individuals and families were forcibly removed from their homes and communities and placed in internment camps located across the country. Behind the barbed wire and under the constant surveillance, a remarkable love story unfolded that has become a testament to the resilience of the human spirit.

A Japanese American woman’s life in US internment camps and post-war Japan

The Block Manager is the gripping memoir of Janet, an American-born child of Japanese immigrants. After the attack on Pearl Harbor, Janet’s life in California was uprooted when thousands of Japanese Americans on the West Coast—including Janet’s family—were forced into internment camps. Because of her brilliant command of English and Japanese, she was assigned the job of block manager. Janet was shuffled between three camps, got married, and had a child while the war raged on.

After enduring the psychological strain of forced incarceration, her very survival was threatened when she joined her husband in post-war Japan as famine gripped the country. Janet remained an American patriot through all her ordeals, holding on to the dream of reuniting with her family in the US. The Block Manager beautifully captures the uncertainty surrounding the internment camps and the gaman—patience with dignity—of the detainees.
