# The Life Of Donald Baxter Macmillan: Arctic Explorer

When it comes to captivating tales of remarkable individuals, few can rival the awe-inspiring journeys and incredible achievements of Donald Baxter Macmillan, the renowned Arctic explorer. Born on November 10, 1874, in Provincetown, Massachusetts, Macmillan dedicated his life to discovering the raw beauty and

unforgiving nature of the Arctic region. This article delves into the extraordinary life and expeditions of the man known for his unyielding spirit and unwavering passion for exploration.

### **Early Life and Beginnings**

Macmillan's fascination with the Arctic started at an early age, inspired by the stories of the great explorers who ventured into the unknown. After graduating from Dartmouth College in 1898, he became a teacher, but his insatiable thirst for adventure led him to dedicate his summers to exploring the Arctic. Macmillan began accompanying scientific expeditions to Greenland, where he honed his skills in survival, navigation, and understanding the native Inuit culture.

### The 1908 Peary Expedition

Macmillan's first significant Arctic expedition came in 1908 when he joined renowned explorer Robert Peary on his expedition to reach the North Pole. Although the expedition did not achieve its ultimate goal, it marked the beginning of Macmillan's extensive Arctic explorations. The knowledge and experiences gained during this journey laid the foundation for his subsequent expeditions.

#### The Crocker Land Expedition

In 1913, Macmillan spearheaded an expedition to explore Crocker Land, a mythical landmass believed to exist in the Arctic. Braving treacherous conditions, Macmillan set out with a small team, determined to uncover the truth. Despite the disappointment of not finding Crocker Land, the expedition yielded valuable scientific discoveries and further solidified Macmillan's reputation as a skilled and dedicated explorer.

#### The Peary-MacMillan Arctic Expedition

Undeterred by previous setbacks, Macmillan embarked on yet another groundbreaking expedition in 1914, this time in partnership with Robert Peary. The Peary-MacMillan Arctic Expedition added vital knowledge to the scientific understanding of the region and accomplished numerous geographical and meteorological surveys. Macmillan's relentless pursuit of knowledge and his ability to adapt to the Arctic conditions earned him the admiration and respect of fellow explorers and the scientific community alike.

### **The Bowdoin Expeditions**

Macmillan's most notable expeditions were carried out aboard the schooner Bowdoin, which he acquired in 1920. The Bowdoin expeditions, spanning several decades, allowed Macmillan to further explore the Arctic and conduct scientific research. His expeditions became significant milestones in the field of polar exploration and contributed enormously to our understanding of Arctic flora, fauna, and indigenous cultures.

#### **Legacy and Impact**

Macmillan's contributions to Arctic exploration extended beyond his groundbreaking expeditions. He helped establish the Eagle Island Weather

Station, which provided valuable meteorological data for years. Additionally, Macmillan served as a mentor to many aspiring explorers, sharing his extensive knowledge and encouraging them to pursue their dreams. His dedication and love for the Arctic inspired generations of adventurers, scientists, and environmentalists around the world, leaving an enduring legacy.

Donald Baxter Macmillan's unwavering determination, resilience, and sheer passion for the Arctic undoubtedly make him one of the most remarkable explorers in history. His expeditions not only pushed the boundaries of human achievement but also shed light on the vast and harsh Arctic region, enriching our understanding of the world. Macmillan's fearless spirit and insatiable curiosity continue to inspire individuals to explore the unknown, preserving his legacy for generations to come.

From 1908 until 1954, Donald Baxter MacMillan spent nearly 50 years exploring the Arctic—longer than anyone else. Growing up near the ocean, and orphaned by 12, MacMillan forged an adventurous life. Mary Morton Cowan focuses on the vital role MacMillan played in Robert Peary's 1908-09 North Pole Expedition, as

well as his relationships with explorers Peary, Matthew Henson, and Richard Byrd. She follows his long and distinguished career, including daring adventures, contributions to environmental science and to the cultural understanding of eastern Arctic natives. Working closely with the Peary-MacMillan Arctic Museum at Bowdoin College, Cowan showcases many MacMillan documents and archival photographs, many MacMillan's own in this winner of the John Burroughs Nature Books for Young Readers Award.
