A Brief History of Alcatraz

Originally inhabited by Native Americans for thousands of years, Alcatraz Island was first discovered by European explorers in the 18th century. It was later established as a military fortress during the mid-19th century to protect the San Francisco Bay. However, it wasn't until 1934 that Alcatraz gained notoriety as the site of a federal prison.

The Alcatraz Federal Penitentiary was designed to hold the most dangerous criminals of its time. With its isolated location, surrounded by treacherous waters and strong currents, it was believed to be an escape-proof facility. Famous inmates, such as Al Capone and George "Machine Gun" Kelly, were among the many incarcerated individuals who experienced the harsh conditions and strict discipline of Alcatraz.
